

celebrating
70
years

The past 4 days have been some of the more challenging, full of emotions and uncertainty, yet reassuring and inspiring. As I listened in on a conference call amongst my community leaders and colleagues, tears welded up. In those moments I was inspired to be a part of a group that is completely committed to providing resources and support to its community. In times of not feeling so fortunate, we are incredibly lucky to have some of the best community-wide leaders, healthcare professionals, educators, philanthropic partners, non-for-profit organizations, and community members focused on the COVID-19 pandemic.

In thinking about United Way's role in this pandemic, it confirms just how necessary and important our support is! Our local agencies need us, and we need them! It's our job to make sure our local partner agencies and critical programs are financially stable so they can continue to provide services during this very difficult time.

More than ever our community work is important! If you would like to offer help to continue to support our mission and the work our partner agencies are doing, please donate at www.uwwce.org. Your financial support will make a significant difference in our community and ensure program stability.

I'm humbled by our community response, the level of experts making an impact with COVID-19 and better understanding this pandemic; along with the care, passion and love people have for each other.

With gratitude and hope,

Jessica Ryan
Executive Director
United Way of Washington County East
